Tournament Rules:

I. Participation – Only students who attend NASP® schools may participate

- NASP® Schools: Every competitor must attend a school offering NASP® lessons as part of the curriculum.
- 4-12th Grade Students: Only students who are in grades 4-12 by the date of the tournament may participate.
- A student below 4th grade may participate if documentation from the school principal is provided to NASP® at the on-site registration desk indicating the student has participated in the school's NASP® classes and can safely perform all tournament procedures with NASP®-specific equipment.
- Competitive Divisions: Elementary: 4th-6th grades. Middle: 7th & 8th grades, High: 9-12 grades.
- A student at a NASP® school that has graduated during (i.e. early) the current school year may, at the discretion of the coach, be registered to participate.
- Team Size: NASP® archery teams must contain 16-24 students, at least 5 of which must be of the opposite gender.
- Shooting "Up": A student, who by grade would be in a younger Division (elementary or middle school), may shoot "up" for a team in an older Division, if the student is from the same school or same district and both schools offer NASP® as part of the school's curriculum.
- Unless 'shooting up', students may only shoot for a team at the NASP® school they attend.**
- A school may register as many teams that qualify at their state tournament.**
- Single Gender or Small Schools: If the school is single gender, opposite gender participants may come from other NASP® schools in the same city, county, or school district. **If the school contains fewer than 125 students (combination of grades 4-12) the team may be comprised of students from other participating small (< 125 students) NASP® schools in the same city, county, or district.**

Interpretation of Elementary Students in 4th, 5th, and 6th Grades:

What do G. and H. above mean to 4-5th grade students who attend an elementary school without 6th graders and to 6th graders who attend a middle school without 4-5th graders?

The 4-5th graders may not shoot on an elementary team with the 6th graders because they don't attend the same school – violates rule H. The 6th graders may not shoot on an elementary team with the 4-5th graders because they don't attend the same school – violates rule H. Being an elementary feeder school to a middle school does not qualify for an exception to these rules.

A "school" for the purposes of participation in NASP® tournaments is a building or set of buildings on the campus where students at that school attend. For instance, a high school may have 9th grade and 10th-12th grade students on the same campus but in different buildings. For the purposes of NASP® participation, this is one school. In another school all students K-12, 6-12, etc. may be in the same building or buildings on the same campus. This is one school. If a school or campus is at a separate address such as the "North Middle School and North Elementary School" even if in the same district, they are separate schools and separate campuses and may not mingle shooters on teams unless shooting up as per "G" above.

II. Equipment -- Only equipment specified for use in the NASP® may be used in the tournament.

- A. Bows: Only the stock (original), unmodified Genesis™ bow approved for NASP® may be used.
- Only thread knots or heat shrink nock locators will be permitted to be used. The bow string may have 1 or 2 nock locators. If two nock locators are used the arrow nock must be placed between them. Brass nock locators are prohibited. Instructions for tying on a nock locator are available at www.nasparchery.com
 - The bow must be sight and sight-mark free. Camouflage bows may be used, but the face of the riser window must be covered to prevent camouflage lines serving as sight-marks. Tape or paint placed to cover sight marks must remain in place throughout the competition. The flight cannot be delayed to cover sight marks. **It is important archers and coaches check every bow for compliance before their flight time.**
 - The bow must be free of draw stops or stabilizers.
 - The bowstring and cables may be “after-market” but of the same approximate length.
 - The cable guard, slide, wheel, cam, bearings, riser, and limbs must be original and unmodified.
 - An archer’s bow may be personalized by painting, stickers, etc. as long as sighting aids are not created.
 - The arrow rest must be original and unmodified. A missing rest arm sleeve is permissible.
 - All bows must be on bow racks for range official inspection before shooting begins.
 - Bows may not be taken behind the waiting line without range official approval once shooting begins.
 - The bow’s draw weight must remain unchanged after the 1st non-practice arrow is shot at 10 meters.**
 - Loaner Bows:** Archers are encouraged to bring their own NASP® bows. A very small number of “loaner” bows will be available in case of equipment failures. Our single line format is unsuitable for bow-sharing.
- B. Arrows: Only arrows and arrow components approved for use in the NASP® National Tournament may be used.
- The only arrows permitted for use in this tournament are the unmodified, Easton aluminum 1820 Genesis arrows. If providing your own arrows, they must be this official and unmodified NASP® arrow.
 - Arrow nocks may be the NASP® standard which is glued on a swaged end of the arrow shaft.
 - Or the arrow may be the next generation NASP® Genesis 1820 arrow by Easton with the original push-in nock and blue or gold aluminum shafts**
 - Arrow points must be the NASP® standard; glue-in, cone shaped and weighing 60 grains.
 - Arrow vanes must be soft plastic, 2.8” long and no more than .5” in height and attached to the shaft with a straight off set of approximately 1.5 degrees. There may only be 3 vanes on the arrow.
 - Arrow vanes may be marked for purposes of identification.
 - The arrow shaft may be marked, crested, or taped above the mid-point (towards the nock) for purposes of identification.
 - Arrow Supplies:** Tournament officials will provide 5 arrows (and replacements as needed) in each archer’s floor quiver. **The new arrow in a.ii above will be the arrow provided for use at this tournament.** Personal arrows may be used but must meet standards outlined above (a.i. or a.ii), be uniquely marked to identify the archer’s arrow, and placed in provided floor quivers.
- C. Accessories: Archers may wear finger tabs, tape, or gloves to protect draw-hand fingers. “No-glove” finger-protection devices may be placed on the bowstring. **Heat shrink tubing may be placed on the bowstring to reduce finger strain but the tubing must cover the entire center serving above and below the nock locator(s).** Archers may wear arm guards. Finger or wrist slings are allowed. Wrist slings may be attached using the stock bolt that comes with the strap. The bolt must be made of steel or plastic and must protrude one inch or less beyond the bow’s accessory hole. Mechanical release aids are not allowed. “Sims” vibration dampeners on the limbs are allowed.
- D. All bows, arrows, and accessories used by participants may be subjected to inspection, including dismantling at the discretion of tournament officials. Anyone found using disallowed equipment or modifications will forfeit their awards and be disqualified from the rankings. Disqualification may affect their team’s rank.
